1. [DHP15B-001: Conversion to Universal Plasma](#)

Demand for plasma-based therapies continues to rise. In the US alone, there were ~29 million donations of plasma in 2013¹. Plasma-based therapies are also in high demand in the military. Warfighters with combat casualties often require massive plasma transfusions for trauma, shock, burn injury, and emergency surgery. Today, only Type AB blood donors, who account for only 4% of the overall donor po ...

2. [DHP15B-002: Laser and Lightwave Therapies for Wound Healing Application](#)

Since 8 December 2007, the war in the Middle East has seen over 30,000 soldiers injured in combat with the majority of these injuries occurring the last few years [1]. Despite the type of the injury, the majority of the wounded have suffered some degree of soft tissue injury which needs to be addressed. Since these soldiers endure harsh conditions and their wounds are much more likely to become in ...
